### Roxtec selected to ensure safety in utility tunnel in China

**Pic 1 - IMG\_9083b - LowRes.jpg**

Jinan Municipal Public Utilities Bureau specified Roxtec cable and pipe seals for the utility tunnel along North Industrial Road in the Shandong province, China

The seals had to be able to handle the complex system of cables and pipelines and withstand rainy conditions and constant water pressure. A power outage would affect many factories nearby and cause severe safety issues as well as production losses for up to one billion CNY (152 million USD).
